TO ALL LOCAL AGENTS & REGISTRANTS

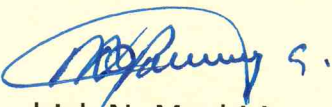

RE: IMPLEMENTATION OF THE LABELING GUIDELINES IN ACCORDANCE WITH THE GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS) AND THE KENYA LABELLING REGULATIONS, 2024

The Pest Control Products Board commenced the process of aligning the labeling requirements with the Globally Harmonized System of Classification and Labelling of Chemicals (GHS) moving from its current WHO-based classification to comprise of physical, health (acute and chronic) and environmental hazards earlier on this year.

The new labelling guidelines integrates globally recognized labeling criteria, thus enhancing hazard communication throughout the supply chain, to improve transparency and awareness. The integration process has been achieved through a series of workshops and trainings on GHS implementation.

Following the successful sensitization on the aforementioned subject matter, the Board shall proceed to implement the labeling guidelines in accordance to the globally harmonized system of classification and labeling of chemicals (GHS) and the Kenya labeling regulations, 2024 as scheduled.

All are required to comply by 31st March, 2026.
